

VILLAGE OF *Frazeysburg*

ELECTRIC & NATURAL GAS AGGREGATION PROGRAM

Many of us find it challenging to shop for energy rates or decipher complex contracts. To assist residents, Frazeysburg is presenting a straightforward solution on the ballot this November: a collective buying program for electricity and natural gas.

What does it mean for you:

- Lower rates through bulk buying power
- Protection from high supplier monthly variable rates
- No tricks- no early exit fees, no automatic high-price renewals
- Local control- Frazeysburg picks the supplier, not the utility or a big corporation

**YOU'LL STILL GET THE SAME UTILITY BILL (AEP OR COLUMBIA GAS)
AND YOUR SERVICE WON'T CHANGE. BUT YOU'LL FINALLY HAVE PRICE
STABILITY IN A MARKET THAT KEEPS GOING UP!**

**THIS NOVEMBER A "YES" VOTE MEANS SAVING MONEY
TOGETHER AS A COMMUNITY!**

On the Ballot

"Shall the Village of Frazeysburg have the authority to aggregate the retail electric/natural gas loads located in the Village of Frazeysburg, and for that purpose, enter in to service agreements to facilitate for those loads the sale and purchase of electricity/natural gas, such aggregation to occur automatically except where any person elects to opt out?"
