Pool Finances

Emmett Reisinger reported that pool finances are on track, with no major concerns noted.

Sewer Plant Loan

The sewer plant loans total $1,319,000.00, with a current balance of $931,900.00.
The village has paid $387,100.00 to date, primarily toward interest; interest paid last year totaled $29,700.00.
The loans carry a 4.125% interest rate, with two payments due each year; the most recent payment was $14,000.00.
Emmett will review the loan balance, payoff details, and how prior payouts were posted to determine the best payoff approach.
Areas to review include whether to pay off the smallest loan first, whether USDA payoff or forgiveness programs are available, and whether Representative Balderson can identify programs for villages.
The committee will review the wastewater budget, including overage income, the $8.10 per $1,000 rate, and the revenue needed to support operations.
Mayor Wolford mentioned speaking with the county again regarding a possible plant offer of $1,500,000.00.

Revenue Opportunities and Tax Discussion

The committee will contact RITA again to obtain a report of all employers in the village.
The report was eventually received but appears to be missing several employers; the committee will review the report for follow-up.

Review of Year-to-Date Financial Reports

The committee reviewed questions from the year-to-date financial reports and noted answers from the meeting for follow-up.

Solicitor

The committee will speak with Taylor regarding concerns about expenses that may need to be reimbursed for the village after audits are completed.
The discussion focused on whether bond coverage may apply if accounting errors caused citizen funds to be used for incorrect payments, subject to determination of the final amounts.

Zoning Inspector

A request was submitted for 41 hours over two weeks, although the position is expected to be limited to 10 hours.
Training timing was identified as the primary issue affecting hours worked.
The committee discussed changing the position to a salary of $2,640 per year and creating a resolution for council review.

Insurance Renewals

Anthem presented a 27.44% rate increase, reflecting $110,843.64 in projected village payout at the current cost level.
A second carrier, Favor Health Path, showed a possible 4.82% increase over current costs.
A special finance meeting is needed to review any additional carrier quotes, followed by a special council meeting for employee review of coverage.
The special finance meeting is scheduled for August 17 at 6:00 p.m., and the special council meeting is scheduled for August 19 at 6:00 p.m.

- **Mayor Wolford plans to have a meeting with Eric Reed from the Muskingum County Port Authority about them purchasing the sewer plant from the Village. Last, he had spoken to them they planned to build a plant of their own outside of town. The Port Authority will have to buy some property from the Village for their lift station.**
- **Fiscal Officer Reisinger explained that the new Zoning Inspector had turned in a time card that had 41 hours for a pay period. Reisinger explained that the Village cannot afford a time card like that for zoning. Council and the Mayor felt it be best if a written contract was drawn up and signed stating what was expected for the Zoning Inspector Job. Reisinger recommended the job turn in no more than 10 hours a month. He noted that the last Zoning**

Inspector only charged 3 or 4 hours per month and the Office knew she had more hours in it than that.

- **Insurance Renewal: Anthem is going to increase the insurance premium and the Village cannot afford it. Quotes are being sent in for Council to determine which one will best suit the Village and its employees. A special Finance meeting will be August 17, 2026 to review the quotes received before the special Council meeting. Mayor Wolford wants to meet with employees to explain the new insurance plans and get their opinions on what they feel is best before voting on a plan. The meeting for employees will be August 18, 2026 and our broker from Rankin & Rankin Insurance Company will be at the meeting to explain the plans to employees. The Village currently has a Heath Care Reimbursement Agreement and it has been determined that getting rid of that program will save the Village $16,000.00 a year and that will help the Village. Fiscal Officer Reisinger explained that it is important to him that the Village keep offering the employees to have insurance for their family. With getting rid of the HRA this will help the Village be able to keep family plans for employees.**

PARKS AND RECREATION REPORT: (the following info in regular type is the committees' notes, **the bold letters are what was discussed during the council meeting**)
Present: Kurt Laughton and KC Smith

- **The committee asked about planning tournaments for the 2027 season at Frew Park, they would like to see more events at the park this season.**
- **The committee asked if fundraising could be started for the pool in late winter/early spring. Council agreed that it made sense to start fundraisers early and then suggested making a list of supplies that residents could donate if they would rather that then donate money. The only concern with that was if everyone was to donate the same item.**
- **Fiscal officer Reisinger reminded the committee that they still needed to replace the freezer that had broken mid-season and he would like to see some updates made to the pool such as new paint, new mulch for the playground outside of the pool, and possibly an updated roof. He explained the Village needed to start applying for grants from either Straker or Schooler for these upgrades.**
- **Reisinger told Council that the pool had received donations from Kendrick and Ridge for $2,500 each.**
- **The committee brough up the future bike path plan. Mayor Wolford explained that he had contact a resident that lives on Clay and it willing to let the bike path go through their property. The Village will start looking for grants for that project in the future.**

ZONING REPORT: (the following info in regular type is the committees' notes, **the bold letters are what was discussed during the council meeting**)

POLICE REPORT:

August 2026 Report to Council and Jackson Township

Statistics for July 2026 [vs June 2026]:

Total Incidents	Calls for Service	Missed Calls	Avg. Response Time - FPD	Avg. Response Time - MCSO	Traffic Stops	Citations/Summons Issued	Arrests Made
39 [49]	33 [46]	15	5 minutes	21 minutes	6 [3]	3 [3]	0 [0]

Notes for the Month:

As of this month's report, we are now including missed calls and average response times for both our agency, and the Sheriff's Office. This is not only to increase transparency, but also to support an upcoming initiative by the Village to put up for vote a small levy to raise funds for the Department. These funds would go directly towards hiring another full-time officer, which we have lacked since the departure of former Chief Bourne.

We will allow the Mayor/Council to explain the full details, but the primary reason we are unable to hire another full-timer immediately is that some of the payroll funds were previously taken from the wrong place. Now that the fiscal issue has been rightfully corrected, the general fund (which pays the payrolls for the entire Village workforce) does not currently have the funds to support another full-time officer. Large purchases by the village, such as acquiring Frew Park, only made financial matters that much more difficult.

As of this report, the Village employs one full-time officer, and two part-time officers. This leaves large gaps in coverage that must be covered by the Muskingum County Sheriff's Office. And while we sincerely appreciate their support—even when we are here—they cannot provide the same level of dedicated service as our own officers, as they have an entire county to cover. Put simply, without village officers, response times will be significantly higher, and things like speeding and other traffic complaints will go largely unaddressed. We do not have all the details of the upcoming levy, as that will be announced in the near future by the Mayor/Council, but we hope to have your support in allowing us to provide the best service possible for the Village and Township. Please keep a watch out for any announcements, or attend the next Council meeting, which is scheduled for August 10th.

Even as of just last month, there is a clear difference in the response times between FPD and MCSO. Response times are taken directly from CAD entries, and are rounded up to the nearest minute before being divided by the amount of calls. Self-initiated calls like traffic stops are generally not counted towards this average. Missed calls will show what deputies are forced to respond to when we are not available. And while this levy will only support one additional officer if passed, it should allow an officer to be on duty every day of the week, something that has been sorely lacking for some time. With the increase in business and growth on the not-too-distant horizon (Intel, the planned business park at 586, etc), we hope that we will be able to someday support additional officers without dedicated levies, but we want to make sure that we are here to deal with those changes as they come, and grow along with the Village and Township. And so long as I am leading this department, we will never use citations as a source of revenue.

As always, please call the Muskingum County Sheriff's Office at 740-452-3637 to report any non-emergency concerns or suspicious activity, or 911 in the event of an emergency.

Vehicle Report:

No issues or concerns to report at this time.
